# NETS OUT NOW! PROTEST POSTER EXAMPLES

The NETS OUT NOW protest posters come in four sizes. Each PDF file contains eight pages so you can choose which option(s) you'd like to use.

Three pages feature the individual words, "NETS", "OUT", and "NOW". You can tape those pages together or three people can work together to hold the words. The largest poster size works well with multiple people.

Two pages feature animals caught in the shark nets with blank space around them. This is where you can write your own protest verbiage. In the example above you can see the space was filled with "STOP the KILLING", "TAKE THE NETS OUT", and "NO MORE NETS".

We invite you to get creative with these posters! These examples are just here to provide a starting point. We look forward to seeing you at our protests. If you're not able to attend in-person, please protest with us online! Just print the poster you wish to use, colour it, and share a photo on social media using the #NetsOutNow hashtag. Make sure to tag us in the post!
